

STI SSD Content - Sept 2022 (R2 & 3)

The following tables indicate the services listed in the ICD document and described in the present set of documents. These documents are compatible with both Release 2 and Release 3 of ICS2. For each service the corresponding specifications document is identified.

Service ID	File
eu_ics2_t2c An ENS Filing, ENS Amendment, ENS Invalidation, Arrival Notification, Additional Information Response or HRCM Screening Outcome Message is submitted by the EO system and is received by the ICS2 TI Application.	CD3-ICS2-STI-SSD-eu_ics2_t2c-SfA-v5.00
eu_ics2_c2t This service covers the communication from Customs to Trade including the assignment of a MRN or the different possible notifications.	CD3-ICS2-STI-SSD-eu_ics2_c2t-SfA-v5.20

Table 1: List of services to be implemented in the context of ICS2 TI

NOTE: The Service Specifications Documents versions published hereby are identical to those published in March 2022. However, the Technical Service Contracts (TSC) covering the XSD files include some changes on certain complex types.
